### MATRIMONIAL.

**THE LADIES OF THE UNITED STATES:**  
It has been my good fortune to devote to health many thousands of my country-women.

My success has excited the interest of the medical and dental; but their publications have served only to extend and widen still more our knowledge. Scores of general offices have failed to meet the wants of those who are suffering, whom I have relieved, so long as I can find in sufficient and thankful remunerations by those who have experienced my skill, I can afford to dispense the efforts of manufacturer-makers and shavers.

My success has naturally urged me to place my medical practice for domestic women under the name of the Ladies of the United States; for an indisposition to enter a field so occupied quickly, with their personal prominence and a fear that unprincipled competitors might palm upon the public their various imitations, have caused a general reluctance to take up such a name. Every practitioner of binding done, especially blank Books, Ledgers, Journals, Sales Books, Receipting Books, &c., &c.

**COMMUNICATED.**—  
**To the Working Men.**

MESSES.—Every man who allows me by your indulgence, to call attention to the meeting of working men at the old Court House, on Thursday evening next. The object of the meeting has been before stated, but as this movement naturally, and of necessity comes out of the present state of things as certain as our great republic came out of a depressed state before it, and as the movement is not to stop with a few meetings or discussions, I would therefore call the attention of all classes of citizens who feel an interest in the welfare of the poorer classes,
